Mimic a Print Advertisement

Introduction:

Assignment: Find a simple advertisement in print. Write HTML and CSS to mimic the look of that page as closely as possible while also making adjustments that are allowed by the web. For example, if an image is found at the lower right corner of the page it should be displayed at the lower right corner of the window and remain there as the window is resized.

Narrative:

For this assignment, I chose to do an add from a magazine (pictured below). This ad contains images as well as text and some special characters. I used div tags for every block of text and formatted them accordingly. I could not find the exact font that was used in the ad, but I tried to replicate it as best I could.

Conclusion:

I thought that this assignment was helpful in making me better understand how the position elements of CSS work, and how to correctly place things on a web page.

(code can be seen below)

HTML:

```html
<html>

    <head>

        <link rel="stylesheet" type="text/css" href="theme.css">

        <title>Smart Made Ad</title>

        <meta charset="UTF-8">

        <meta name="viewport" content="width=device-width, initial-
scale=1.0">

    </head>

    <body>

        <div class="big">MEALS </div>

      <div class="big">INSPIRED</div>

      <div class="big">BY</div>

        <div class="big">YOU. </div><div id="tm">&trade;</div>

        <div id="text1">MADE WITH REAL INGREDIENTS YOU CAN

            PRONOUNCE</div>

        <div><img id="bowl" src="bowl.png" alt="Bowl"></div>

        <span id="text2">MADE WITH REAL GRILLED

            WHITE MEAT CHICKEN</span>

        <span id="text3">MADE WITH ROASTED CORN & RED

            PEPPERS FOR EXTRA FLAVOR</span>

        <span id="text4"> SMARTMADE &TRADE; FROZEN MEALS</span>

        <span id="text5"> Delicious meals made like you make them,
using cooking

            techniques like grilling and roasting-just like you do at
home</span>

        <img id="box" src="box.png" alt="Box">

            <img id="logo" src="logo.png" alt="Logo">

            <img id="check1" src="check.png" alt="Check">

            <img id="check2" src="check.png" alt="Check">
```

```
<img id="check3" src="check.png" alt="Check">

    </body>
</html>
```

CSS:

```css
body{
    background-color: #919388;
}
#bowl{
    width: 65%;
    height: auto;
    position: absolute;
    top: 70%;
    right: 25%;
    left: 28%;
    float: right;
    margin-right: 15%;
}
.big{
    position: relative;
    font-weight: bold;
    color: darkred;
    font-size: 350%;
    width:90%;
    float: left;
    overflow:hidden;
    font-family: verdana, Geneva, sans serif;
    div{page-break-after: always;}
```

```css
}
#tm{
    position: absolute;
    top: 40%;
    left: 25%;
    float:left;
    color: darkred;
}
#text1{
    position: absolute;
    top: 60%;
    left: 15%;
    right: 65%;
    text-align: center;
    font-size: 80%;
    color: darkred;
}
#text2{
     position: absolute;
    top: 60%;
    left: 45%;
    right: 30%;
    text-align: center;
    font-size: 80%;
    color: darkred;
}

#text3{
     position: absolute;
```

```css
        top: 60%;

        left: 76%;

        right: 0;

        text-align: center;

        font-size: 80%;

        color: darkred;

}

#box{

        position: absolute;

        top: 105%;

        width: 45%;

        left: 60%;

        overflow: hidden;

}

#logo{

        position: absolute;

        top: 110%;

        width: 17%;

        right: 40%;

}

#text4{

        position: absolute;

        top: 105%;

        right:41%;

        color: darkred;

        font-size: 150%;

}

#text5{
```

```
    position: absolute;

    top: 115%;

    right: 41%;

    text-align: right;

    left: 10%;

}
#check1{

    position: absolute;

    top: 50%;

    right: 70%;

}
#check2{

    position: absolute;

    top: 50%;

    right: 38%;

}
#check3{

    position: absolute;

    top: 50%;

    right: 8%;

}
```
